Claims 1-3 are presented for examination.

The remarks filed on August 26, 2009 have been received and entered.

Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Malfroy-Caine et al. (US 6,046,188) in view of Winkler et al. (Molecular Vision 1999) for the reasons set forth in the office action of May 27, 2009..

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive for the reasons discussed in the office action of May 27, 2009. Applicant in his arguments again refers to the teachings of De La Paz and Delcourt to show there was no reasonable expectation of success for the use of any superoxide dismutase compound to treat AMD. Such references did not find a relation between the oxidative stress as measured by antioxidant enzyme in red blood cells and disease severity in AMD. It is the examiner's position that such references did not find a relation between oxidative stress and severity of AMD. However, the references do not indicate that antioxidants can not be used for the treatment of macular degeneration. Furthermore, applicant's attention is directed to the references submitted by the applicant, but has not been officially relied upon by the examiner to show the oxidative stress in diabetic retinopathy by Gurler et al. and Genetic Association of Manganese Superoxide Dismutase with Exudative Age-related Macular Degeneration by Kimura et al. Such references further emphasize the effect of oxidative damage in diabetic retinopathy and also to show the polymorphism manganese superoxide dismutase gene is associated with exudative age related macular degeneration.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
